

I was concerned to hear of the possibility that Low Power FM stations make take priority over current FM translator service. I have been a local listener of K-LOVE for the past five years and have not only enjoyed their music but also the local events that they annouce. I believe this is a vital station to our community and often helps promote local community events such as Spirit West Coast which takes place in our community. I believe it is in the public's best interest to be able to continue to have this type of programming available in our community. Please consider these thoughts when making your decision. Thank you.
